Detectamet Stainless Steel, Metal Alloy, Brass and Anodised Aluminium finish-based products Not Intended for Contact Food but used in Food Preparation Areas

Product Code	Description
113-A05-I**	St/St Brass Pen Retractable *

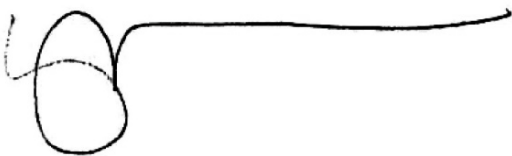

Applicable Products:

This statement refers to metals and alloys used in the manufacture of pens, metal stationery and other products not intended for direct food contact but which may be used in food preparation areas.

Regulations and Standards

We confirm that the stainless steel, metal alloys and anodised aluminium used in the manufacture of these products is suitable for incidental short term contact with food on the basis that specific metal release limits of the Council of Europe (COE) Resolution CM/Res(2013) 9 on metals and alloys used in food contact materials will not be exceeded.

No warranty is given or implied with respect to this information or patent infringement. Detectamet Ltd do not accept liability for loss or damage arising from the use of this information. Results are based on a test sample, our general experience and information from our suppliers. Data and results must be confirmed by the buyer by testing for its intended conditions of use.
