

1011 – Metal Detectable Wing Grips

Document Number: HSE 7247

Date Of Issue: 07/12/2023

Revision Number: 1

Date of Revision: 07/12/2024

Code	Description
1011-T786-P02-02	Metal Detectable Wing Grips

Product description:

The metal detectable operating parts are made from a EU10/2011 and FDA conform plastic granulate.

Due to special additives to the plastic granulate, it is possible for metal detectors

(induction technology) to detect plastic particles from a size of 0.027 cm³ (3x3x3 mm). This means that in sensitive production sectors, e.g. foodstuff processing, plastic fragments of metal detectable operating parts can be identified and the risk of production downtimes or complaints are significantly reduced.

Material:

Thermoplastic (fibreglass reinforced polyamide), metal detectable, EU10/2011 and FDA conform.

Steel parts stainless steel 1.4404.

Version:

Thermoplastic black-grey RAL 7021.

Steel parts bright stainless steel.

Note:

The metal detectable additive can lead to partial colour variations in the plastic surface.

Application:

- Foodstuff industry
- Pharmaceutical industry
- Packaging industry

Temperature range:

-20°C to +100°C.

Advantages:

Metal detectable.

Detections volume $\geq 0.027 \text{ cm}^3$.

Foodstuff conform material.
