Document Number: HSE7145

Date Of Issue: 16/3/2018

Revision Number: 2

Date of Revision: 16/3/2023

Product Code	Product Description	Product Colour
446D-T009-PO*-X32	Detectable Mob Caps standard version Blue Pack 1000	Available in 8 colours

Base Material

Spunbonded nonwoven polypropylene fabric produced using Twin Beam manufacture where a high number of very ultra-fine strands are produced providing a high consistent coverage combined with excellent strength and breathability. All to EDANA/INDA/ASTM standards. (older technology equipped machinery produces “gaps” in coverage and is not used for this product). 12 gsm material is chosen for the Mob Cap + Spandex Comfy Band from Twin Beam production.

Elastication

The Mob Cap uses a SPANDEX twin core to achieve the ultimate in COMFORT for those wearers who are required to wear headwear on a continuous basis throughout their working day.

Spandex

is the generic name for an “elastane “synthetic” fibre used throughout the clothing industry, mainly in quality Lingerie/Babies Nappies/Hosiery and most Underwear. It is widely known as LYCRA. The use of Spandex eliminates problems associated with Latex Allergies caused by rubber. The Mob Cap + Spandex Comfy Band does not use RUBBER.

SIZES

Cut Length 460 mm

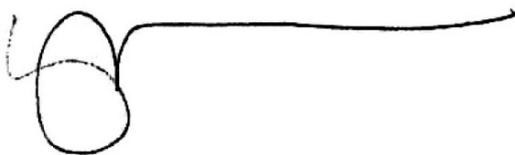

All sizes of The Mob Cap + Spandex Comfy Bands are manufactured using a 500mm WIDTH material to ensure maximum coverage for each size UNI/MED/XXL.

(Note: imported disposable mob caps will use a width material as low as 440mm).

Packaging

250 Mob Cap in a polybag. 4 polybags per case = 1000 ultra-caps per outer case
